

GRA Product Endorsement Report

Company: GenEon Technologies
Category: Chemical and Pollution Reduction
Standard: Cleaning Chemicals
GreenPoints™: 7.75

Date: 3/11/2016

The following products are endorsed by the Green Restaurant Association (GRA) because they meet the GRA's Endorsement Standard for non-toxic cleaning products. This standard requires that each product fulfills all of the following qualifications:

- Composed without chemicals found on GRA's list of excluded ingredients
- Meets performance requirements
- Meets undiluted requirements

GenEon Product Name
Sanitizer
Glass & General Purpose Cleaner
Liquid Electrolyte
Heavy Duty Cleaner/Degreaser
Disinfectant

As a result of these products being endorsed by the Green Restaurant Association, they can fully utilize the endorsement benefits per the contract until the endorsement expires on 3/10/2017.

You can make the following claim to the public:

“If a restaurant uses GenEon's line of products to create Sanitizer, Glass & General Purpose Cleaner, Liquid Electrolyte, Heavy Duty Cleaner/Degreaser, or Disinfectant solutions, that restaurant will earn up to 7.75 GreenPoints™ towards becoming a Certified Green Restaurant®.”
