

InstaFlow

Compact, High-Volume Electro-Chemical Activation Technology for making Cleaning, Degreasing, & Sanitizing Solutions On Demand

General Specifications

Construction	Steel case, powder coated
Power	110V/240V / 8 Amps
Technology	Blended-stream electro-chemical activation technology
Volume	From 1 – 2.5 gallons / 3 – 9 liters per minute
Uses	Creates glass cleaner, general purpose cleaner, heavy duty cleaner, degreaser, & sanitizer
Sanitation Range	5.5 - 7.5 pH
Cleaning/Degreasing Range	9 pH – 11.9 pH
Production (FAC*)	50 ppm to 198 ppm
EPA Establishment Number	088681-KOR-001
Warranty	One year parts and labor

*Free Available Chlorine

*Can be custom configured for higher flow rates
